

## PRESS RELEASE

February, 2019

## MACS Awarded ISO 27001 & 9001 Certification For Information Security and Quality Management Systems

MACS, a leading consultancy organisation specialising in enterprise asset management, with a focus on implementing and supporting IBM TRIRIGA and Maximo, are today proud to announce that they have been awarded with the International Organisation for Standardization (ISO) 27001 and 9001 certification by QMS International GmbH. MACS is the only ISO 27001 certified IBM Maximo/Control Desk (ICD) / TRIRIGA Business Partner in Europe.

With the Benelux office initially achieving ISO 9001:2015 in December 2017, the process was successfully rolled out to the other MACS entities. In parallel ISO 27001 was instigated and successfully completed in February 2019.

“Achieving ISO 27001 & 9001 certification is a significant and important accomplishment,” states Guus de Nijs, CEO of MACS. “It demonstrates our on-going commitment to robust security practices and risk management. By benchmarking our policies and procedures against this internationally recognised Standard, our customers and partners can be assured of the resilience and excellence of our service”.

ISO 27001 is an international standard that recognises MACS dedication to managing information security and to identifying potential security risks. The standard encompasses all organisations’ people, processes & technology, and guarantees the robustness and quality of MACS risk management processes. It demonstrates to customers and Business Partners alike that MACS have developed and enhanced best practice procedures.

### About MACS

Since 1998 MACS has delivered software, services, support and licenses for IBM Maximo, IBM TRIRIGA and IBM Control Desk solutions. With over 60 employees MACS has offices in the UK, Belgium, the Netherlands and Germany and is an accredited GOLD IBM Business Partner.
